

CURRICULUM VITAE

Contact information

Dr. Nghiem Xuan Hoan, MD, PhD
Department of Blood-Borne Infectious Diseases
Institute of Clinical Infectious Diseases
Vietnamese-German Center for Medical Research (VG-CARE)
108 Institute of Clinical Medical and Pharmaceutical Science
No. 1 Tran Hung Dao str., Hai Ba Trung, Hanoi, Vietnam
Tel: (+84) 984986158
Email: nghiemxuanhoan@108-icid.com

Personal details

Full name: Nghiem Xuan Hoan
Date of birth: May 19th, 1983
Place of birth: Hanoi, Vietnam
Gender: Male
Nationality: Vietnamese
Marital status: Married (2008) and two children (born in 2009 and 2014)
Language: Vietnamese, English

Education background

2014-2017 University of Tuebingen, Tuebingen, Germany; PhD
2001-2007 Hanoi Medical University, Vietnam; Medical Doctor
1999-2001 Phuong Duc school, Hanoi, Vietnam General Certificate of Secondary Education

Working experience

Since 1/2019 Group leader, Vietnamese-German Center for Medical Research (VG-CARE) and Clinical physician, Department of Blood-Borne Infectious Diseases, 108 Institute of Clinical Medical and Pharmaceutical Science, Hanoi.
1/2018-12/2018 Postdoctoral fellow, Institute of Tropical Medicine, Faculty of Medicine Eberhard Karls Universität Tübingen (Germany).
4/2015-12/2017 PhD student, Institute of Tropical Medicine, Faculty of Medicine Eberhard Karls Universität Tübingen (Germany).
3/2014-03/2015 Molecular Biology trainee, Institute of Tropical Medicine, Faculty of Medicine Eberhard Karls Universität Tübingen (Germany).
1/2008-12/2013 Clinical physician, Institute of Clinical Infectious Diseases, 108 Institute of Clinical Medical and Pharmaceutical Science, Hanoi.

Research Orientation

My research interests are focusing on Tropical Medicine including liver diseases related to viral hepatitis caused by HBV, HCV, HDV, HEV and other infectious diseases such as HIV/AIDS; Sepsis; Malaria. Most published studies aimed to:

- Investigate the molecular epidemiology of hepatitis viruses, including HBV, HDV and HEV and their impact on the burden of community health.
- Investigate genetic association of human immunological genes with HBV-related liver diseases and pathogenesis and immune response in HBV infection.
- Investigate the role of epigenetics (DNA Methylation, miRNAs and Long noncoding RNAs) on clinical liver disease outcomes in HBV infected patients.
- Utilize the molecular approaches in the diagnosis, follow-up, and prognosis of liver diseases caused by hepatitis viruses including HBV, HDV and HEV.

Scholarships and Grants

Scholarship:	PhD Scholarship (2014 – 12/2017), Funder: Institute of Tropical Medicine, University of Tuebingen, Tuebingen, Germany (~ 60,000 €)
Project 1:	Investigating the role of immune inhibitory checkpoint pathways PD-1/PD-L1 and IDO/TDO-Kyn-AhR in the clinical outcomes of patients acquired chronic HBV infections. Role: Principal Investigator (PI). Funder: NAFOSTED (2019-2022) (~90,000 Euros).
Project 2:	Functional roles of JAK/STAT/SOCS signaling pathway and Interferon-stimulated gene 15 (ISG15) protein modification in hepatitis B virus -related liver diseases. Role: Co-Investigator (Co-I). Funder: NAFOSTED (2017-2020) (~110,000 Euros).
Project 3:	Application study of molecular biology in early diagnosis and prediction for hepatocellular carcinoma in patient infected with hepatitis B virus (HBV). Role: Co-I. Funder: Ministry of Science and Technology (2010-2012) (~200,000 Euros).
Project 4:	Investigating the role of molecular markers in the diagnosis of prostate cancer. Role: Co-I. Funder: Ministry of Science and Technology (2010-2012) (~20,000 Euros).

Honors and Fellowships

2016	Travel Grant, German Academic Exchange Service (DAAD): attending the 51 th International Congress of liver diseases, April 13-17 th , Barcelona, Spain
------	--

Memberships

EASL	European Association for the Study of the Liver
AASLD	American Association for the Study of Liver Diseases
ESCMID	European Society of Clinical Microbiology and Infectious Diseases

Peer Review activities

BMC Medical genetics, Human Immunology, PlosOne, Viral Immunology

Presentations and Talks

1. **Nghiem Xuan Hoan**, Hoang Van Tong, Bui Tien Sy, Nguyen Linh Toan, Le Huu Song, C.- Thomas Bock, Thirumalaisamy P. Velavan. Interferon regulatory factor 5 gene polymorphisms are associated with HBV-related liver disease outcomes. The International Liver Congress. April 2019 in Vienna, Austria. (Peer-reviewed, poster presentation. Journal of Hepatology).
2. **Nghiem Xuan Hoan**, Pham Xuan Huy, Trinh Van Son, Dao Phương Giang, Mai Thanh Bình, Đam Tu Anh, Lê Huu Song, C-Thomas Bock, Hoang Van Tong, Nguyen Linh Toan, Thirumalaisamy P Velavan. HEV positivity in domesticated pigs and a relative risk of HEV zoonosis among occupationally exposed individuals in

Vietnam. The International Liver Congress. April 2018 in Paris, France. (Peer-reviewed, poster presentation. Journal of Hepatology).

3. **Nghiem Xuan Hoan**, Hoang Van Tong, Dao Phuong Giang, Nguyen Linh Toan, Le Huu Song, C.-Thomas Bock, Peter G Kremsner, Thirumalaisamy P Velavan. Functional variants and aberrant Methylation in the SOCS3 promoter region influence the progression of HBV-related liver diseases. The International Liver Congress. April 2016 in Barcelona, Spain. (Peer-reviewed, poster presentation. Journal of Hepatology).
4. Hoang Van Tong, **Nghiem Xuan Hoan**, Dao Phuong Giang, Nguyen Linh Toan, Le Huu Song, C.-Thomas Bock, Peter G Kremsner, Thirumalaisamy P Velavan. Interferon-stimulated gene 15 in HBV infection and progression of HBV-related liver diseases. The International Liver Congress. April 2016 in Barcelona, Spain. (Peer-reviewed, poster presentation. Journal of Hepatology).
5. **Nghiem X. Hoan**, Hoang Van Tong, Nicole Hecht, Bui Tien Sy, Patrick Marcinek, Christian G. Meyer, Le Huu Song, Nguyen Linh Toan, Jens Kurreck, Peter G. Kremsner, C-Thomas Bock, Thirumalaisamy P. Velavan. Hepatitis E Virus Superinfection and Clinical Progression in Hepatitis B Patients. Grad School Day at the Interfaculty Graduate School of Infection Biology and Microbiology (IGIM). 12th February 2016 in Tuebingen, Germany (Oral Presentation).
6. Hoang V. Tong, **Nghiem Xuan Hoan**, Adam Clark, Franziska Gerlach, Nguyen Linh Toan, Le Huu Song, C.-Thomas Bock, Peter G Kremsner, Thirumalaisamy P Velavan. JAK/STAT signaling pathway and susceptibility to hepatitis B virus infection and related liver diseases. The International Liver Congress. April 2016 in Vienna, Austria. (Peer-reviewed, poster presentation. Journal of Hepatology).
7. Hoang V. Tong, Le Huu Song, **Nghiem Xuan Hoan**, Bui Khac Cuong, Bui Tien Sy, Ho Anh Son, Do Quyet, Vu Quoc Binh, Peter G Kremsner, Claus Thomas Bock, Thirumalaisamy P Velavan and Nguyen Linh Toan. Soluble MICB protein levels and platelet counts during hepatitis B virus infection and response to hepatocellular carcinoma treatment. HCC Summit. 13-16th February 2014 in Geneva, Switzerland. (Poster Presentation).
